Concise Explanation of the Relevance of the Above-Mentioned References

U.S. Patent No. 5,367,435 (Andros et al.)

This patent was cited in the International Search Report for the counterpart international patent application as a category "Y" reference, i.e., a "document of particular relevance" which purportedly renders the claimed invention obvious when combined with one or more other references.

U.S. Patent No. 6,239,488 (Chen)

This patent was cited in the International Search Report for the counterpart international patent application as a category "Y" reference, i.e., a "document of particular relevance" which purportedly renders the claimed invention obvious when combined with one or more other references.

Respectfully submitted,
